Plastic Tubes

Tubes that stand out

From facial scrubs to tanning products, you’ll see our tubes everywhere. We’re one of the nation’s top suppliers of branded multilayer tube packaging.

Silgan produces a multilayer extruded tube with a barrier head. Our unique process allows you to produce an array of structures with full inner barrier layers designed to contain your product. Additionally, our process allows you to choose from extensive outer layer options: color, pattern, finish, texture and graphics, allowing your brand to take shape!

- Wide range of standard head styles allows for dispensing a wide variety of products including cosmetics, personal care, food, pharmaceuticals, household and industrial
- Available Materials: LDPE, MDPE, HDPE, EVOH, PCR, Soft Touch
- Decoration Choices: Offset, Screenprint, Hot Stamp Foil, Label Application
- Matte or Gloss coating available
- Special custom designs can also be accommodated
