

WHAT IT MEANS TO BUY RECYCLED

Recycling doesn't end at the bin. When you buy recycled, you complete the recycling circle.

1. LOOK FOR THESE LABELS

"Made with recycled content" or "Made with recycled plastic"

When you buy products marked with this, you are buying recycled!

"Postconsumer content"

That means the recycled plastic comes from homes and businesses, like yours!

2. CREATE LOCAL JOBS

Every 1,000 tons of plastics recycled supports 13 jobs.

Recycling collection

1 job for recycling collection crews and educators

Sorting

2 jobs for material sorters, handlers, and engineers at sorting facilities

Recycling

10 jobs for material sorters, handlers, and technical specialists at plastics reclaimers

3. HELP THE PLANET

Environmental benefits of products manufactured (or produced) with 100% recycled content, based on an estimated 550 pounds of plastic used in an average household each year

2.7

Months of power for an average home saved

184.8

Gallons of water saved

29.8

Days a car is off the road
