

Single & Twin Neck Bettix Family

Silgan Plastics has a full line of bettix dosing containers for your individual requirements. Great for automotive applications, pesticides, lubricants, or concentrated cleaners. The chambered design allows for **dosing and dispensing** - all from one bottle. All bottles are made from natural HDPE in our Houston facility and have corresponding bungs available. We have several SKUs that already incorporate PCR, and all our bettix bottles can be custom manufactured with **up to 100% PCR** to align with your sustainability goals.

Single Neck Bettix

Bottle Size	Chamber Size	Neck Finish	Gram Weight	Item Code
