

# Two-Step Preforms

## Easy, mold-available options

Silgan Plastics has a complete range of PET preforms with a wide variety of weights, colors and sizes for diverse applications. Using state of the art machines, we make preforms that are unmatched in finishing and performance.

Start with this guideline for two-step, mold available preform tooling. Need to modify? No problem! Modifications can be made to existing tools to match variations in your weight or in finish specifications. Need more options? Call us. There are a number of additional preforms under consideration or in the development phase, or one-step preforms that may better suit the needs of your application. Silgan Plastics is also willing to explore the options in new preform tooling with you. The perfect bottle is just a phone call away.

Description	Gram Weight	Neck Finish
